

Welcome to Unique Marketing Concepts, Inc. We are here to bring the effective and efficient marketing strategies of Fortune 500 companies to small business. Small companies are taken advantage of and given few avenues when it comes to marketing. We will help you and your company succeed by applying your budget to methods that work and only cost you when they do - what we call '*Pay-Per-Lead Marketing*'. Stop pouring money into Val-Pak, Newspaper-T.V.-Radio, and other shotgun approaches to advertising - what we call '*Sure Hope-This-Works-Marketing*'.

“Bringing The World, The Universe To Your Company.”
