

Money4U.com

Launching on July 4, 2008, Money4U.COM is a network of community based web sites that allow consumers and businesses to meet one another 'half way'. A merchant provides UMCI with the right to sell a predetermined amount of gift certificates for half the face value. The merchant pays nothing. We market the Merchant through our web site and our related marketing efforts. Every time we sell a gift certificate, the merchant is guaranteed a customer and we retain the actual purchase price of the gift certificate. Everyone benefits!
